

## Passap Gloves Passap Model Book no. 26

This was simplified by Libby Poppleton for Passap Knitters.

**Suggested yarn: fine mohair/acrylic/3 ply wool**

**Suggested stitch sizes: 1X1 rib= st 3 ¾, stocking stitch = 5 ¼**

Cast on with 56 needles in 1X1 rib, knit 30 rows.

Transfer sts for circular knitting = CX/CX (28sts on FB and 28sts on BB – transfer using Decker Combs)

Knit CX/CX and at right increase 8 sts for thumb as follows:

Knit 6 rows, then on BB and FB move 1 stitch 1 needle out, place the loop (heel) of purlst of main knitting on to empty needles.

After every 6 rows move one more st out, i.e. move the two sts you have added – out, fill in st on empty needle, then three and then four etc until row 54.

**THUMB: (E6000 ↔ on FB you have to move pushers manually for all fingers)**

Move 8 sts on right side BB & FB, 1 needle out, place purl loop on empty needles = 9sts.

Put 9 pushers in REST position on FB and 9 pushers in WORKING position on BB – lock in BX <-> ( both arrows) BB and BX<-> FB. Knit 44 rows.

Decrease 1 st at edges (4sts) knit 2 rows – continue until about 3 sts left, pull thread through to finish.

CX/CX knit 32 rows.

On left – LITTLE FINGER – move 6 sts out BB & FB continue, as for thumb but = 7 sts (44rows BX <->/ BX <->)

CX/CX knit 6 rows.

On right – INDEX FINGER – move 7 sts (add one to empty needle) out BB & FB cont as for thumb and little finger but (56 rows).

On right – MIDDLE FINGER – move 7 + 1 out etc (64 rows)

Remaining 8 sts – RING FINGER – CX/CX (56 rows)

{ waste yarn may be used for fingers and thumb instead of leaving on machine and same number of sts (as above) returned to needles each time, CX/CX instead of BX<->/ BX<->.

NOTE: After row 54 before starting thumb knit 2 rows of waste yarn which are unraveled before knitting each digit }

Join wrist and sew up loose ends.

Press lightly.
