

The Brunswick Machine Knitting Novices aims to offer an introduction to machine knitting.

We offer the chance to come and try out a standard gauge punch card machine to anyone who is curious about the process of domestic machine knitting. We are also handy to know if you have acquired a machine and are scratching your head at the tangled mess that seems to be all you can make. We will do our best to help you get into production.

Our group is affiliated with the MKAV. We do not hold regular meetings, but publicise our gatherings, planned or spontaneous, through our group on the knitters networking site, Ravelry..

Membership to [Ravelry](#) is free and unlikely to cause you any annoyance.

There is also a [blog](#) where machine knitting topics are discussed occasionally.

You could also contact the group bmknit@gmail.com.

Most of us attend other MKAV clubs as well to meet and share with other machine knitters, and, with luck, can help you find a group that is nearby and compatible with your knitting interests.
